Whitman Visited Ohio.
Last Sunday's Cleveland Plain Dealer contained the following regarding a distinguished New Yorker who for several years resided in Canfield: Charles S. Whitman, district attorney of New York, and candidate for mayor spent Saturday in Ohio, guest of H. S. Firestone, president of Firestone Tire & Rubber Co. At noon the district attorney was guest at a lunch given in the rubber company's plant in Akron to him and the company's superintendents and foremen. Then a fleet of thirty automobiles carried the party to the old Firestone home in Columbiana county, eighty miles away. Whitman spent his boyhood in Columbiana county, and in the pathfinder car with Firestone, chose the way by which the fleet should go. The party went through Ravenna, Niles and Youngstown, and dinner was served last evening on the farm.

The district attorney, born in Connecticut, was the son of a country minister who settled in Ohio, living at various times in Mahoning and Columbiana counties; in the latter ball-wick Whitman and Firestone became friends, and have since kept up the friendship. Whitman, who has been judge in New York state and district attorney later, was the central figure in prosecuting the murderers in the Rosenthal case, and New York gamblers.

(Mr. Whitman never lived in Columbiana county. It was no doubt his mother's parents resided in Canfield and he attended school here that he became acquainted with Mr. Firestone. Several of the Firestone automobiles passed through Canfield last Saturday afternoon and it is believed Mr. Whitman was in one of them that stopped for a few minutes at the Normal college building. If he was here, however, he did not call upon any old friends so far as the Dispatch has been able to learn.—Ed. Dispatch.)

Paint Put-on
Think of paint put-on and not by the gallon.

A gallon of paint in the can is of no account to anybody. Put it on. Now reckon its cost and value.

The secret is: one paint goes twice as far as another. A good one goes twice as far as a bad one.

You have a job, say an average job, it'll take 10 gallons Devco and 15 or 18 or 20 of middling poor very poor and trash. You know painter's wages in your town. Put the price of a gallon of paint and the painter's day-wage together. You can, we can't.

Devco costs less than any inferior paint; there are hundreds of them.

One paint is as good as another, so long as it lasts good; one lasts months and another years; and the one that goes furthest lasts longest.

DEVCO

Stung.
Big Business and Capital had been put on the Fritz and the factories closed. The I. and R. the Minimum Wage and the Income Tax had gone into effect and the Honest Workingman and the Common Peepull spent a week in celebrating the victory. Their funds having been expended they looked to the subtreasuries, where a spokesman voiced their rights.

"Where is our share?" demanded the spokesman. "Where is our share of the Wealth? We want it now."

"Why, you will have to work for your share, as usual," replied the Government Official.

"Work?" yelled the Common Peepull. "Work for its down with the Government! Why, we had to work for it before the I. and R. and the Minimum Wage and the Income Tax came in."—Cincinnati Enquirer.
